TO GROW TOBACCO.

Center of Experiment Station Talks of Possibilities in Hamakua.

Frank E. Conter, Expert Agriculturist and Assistant at the Hawaii Experiment Station has been on this Island two weeks studying the soil and climatic conditions with reference to their bearing on crops not now grown. Mr. Conter landed at Kawaihae two weeks ago and has made a thorough investigation of Waimea and Hamakua districts. He arrived in Hilo Monday accompanied by Abe Louison the coffee man, and when seen by a TRIBUNE representative, Mr. Conter had many interesting things to say of the prospects of coffee, tobacco, vanilla and cocoa on this Island.

"I have taken soil samples from many places in Waimea and Hamakua," said Mr. Conter, "for analysis at the Station with special reference to their suitability for the growth of tobacco. I am satisfied that the mechanical properties of the soil examined are good for tobacco. It remains to be seen what the chemical properties indicate. If tobacco can be grown successfully here a great field will be opened up, and the districts of Waimea and Hamakua will advance in wealth and population. Tobacco yields from 1000 to 1500 pounds to the acre, 10 to 50 per cent of which may be first quality, which sells at from \$2.25 to \$4.00 per pound. The balance sells at from 15 cents to \$2.00 per pound. Tobacco should be planted in January or February, but if our soil analysis is satisfactory in results, we will probably experiment with one acre in Hamakua this year. We already have the seed and the experiment now depends only upon the results shown by the soil analysis.

"The coffee industry is in a deplorable state. Many of the homesteaders who were formerly raising coffee have left their farms to seek work on the sugar plantations. I have seen nearly all the coffee estates in Hamakua, and nothing is being done to speak of any of them except the Louison estate, where they are still planting trees. Here I went through ten different fields and found coffee growing luxuriantly. The future of coffee depends on the price. Yes, if a 4 cent bounty were given to coffee, the districts out Hamakua way would settle up and be very prosperous. As it is now, homesteaders cannot make a living.

"I am not an advocate of small farming which means the raising of cabbage and tomatoes for the cutworms, and potatoes for fungi and fruit trees to be ravaged by scale. But staple export products, such as coffee, tobacco, castor beans etc, which grow above the sugar belt, are what we must depend upon to increase our prosperity."

Mr. Conter is preparing a bulletin on vanilla which will soon be issued. He said: "both vanilla and cocoa will thrive in hot moist and sheltered places. Cocoa needs good soil and good drainage, while vanilla will grow amongst rocks where there is an accumulation of decayed vegetable matter. Vanilla is generally raised in an open forest, one-third or one half shade and bears a full crop three years after planting. If vines four and a half to five feet are planted a yield may be secured within 18 months. I recently visited Edwards' plantation in Kona, where I saw vanilla vines growing splendidly. Mr. Edwards thoroughly understands the planting and management of this crop."

Mr. Conter, while in Hilo visited Mountain View and the surrounding homesteads. He is here for the first time and looks upon the Island of Hawaii as the most resourceful part of the group.

Emperor Wildly Greeted.

Rome, May 6.—Emperor William departed today for his capital, having completed his visit to various points of interest about this city. He was greeted with the utmost enthusiasm along the route from the palace to the railroad station.

Madrid, Spain, May 9.—Admiral Cervera of Spanish-American war fame has been made a life-Senator.

NEW FARMING COLONY.

Byron O. Clark Working With Land Commissioners to Get Settlers.

Small farming may be given another trial on this Island. Land Commissioner Boyd is said to be working with Byron O. Clark, who made Wahiawa a success, to bring colonists from California to take up 4,363 acres of good land at Pupukea, Oahu. The land is now under lease to the Oahu Railroad Company, but the lease expires next month and Mr. Clarke believes that he can induce settlers to come here from Southern California or from the Northwest. The scheme is yet in an embryonic state, but the land is to be set aside by Commissioner Boyd for colonization purposes and will not be put on the market again.

"The soil is very similar to that of Wahiawa," said Commissioner Boyd yesterday. "The tract at Pupukea consists of 4,363 acres of rolling land and is now covered with rank grass, and has been used only for grazing purposes. The idea is to plant it with good fodder grass, and Byron Clark believes that one acre can be made to support from two to four cattle. The land is right on the railroad and the only difficulty is as to the water supply. There is plenty of water along the sea shore, however, and this can be forced back to the Pupukea lands, which are but slightly higher. The government may itself attempt to show how the water can be carried to the land. Then there is some suggestion that the government take ten acres and demonstrate what can be grown there. The land is like that at Wahiawa, and has the advantage of being more accessible to the railroad. Mr. Clark believes that settlers can be induced to come here from California or the Northwest, and the government will hold the land and see what can be done with it."

ANTONE OAK AGAIN.

Has Another Word to Say About That Reward.

Antone Oak does not like to let the matter of a reward for capturing a prisoner go by the board on an arbitrary ruling of the police department. Some time ago Mr. Oak addressed the following note to Sheriff Andrews:

Kaunana, Hilo, H. T.

Mr. L. A. Andrews:
Dear Sir—In reply to my communication in the Tribune I saw in the Herald that I am not to have a share in the reward offered for the capture of Torres. I wish you would inform me about the matter. I have waited patiently from that time for word from you.

Yours very truly,

A. OAK.

To this letter the Sheriff vouchsafed no reply until one day recently he was personally accosted by Mr. Oak. Mr. Oak reports the Sheriff as saying: "I received your letter and I spoke to the boys about your share. They say you do not have any because you complained of the department in the papers."

The query Mr. Oak wishes to make is: "Who is the boss in the Sheriff's office?"

SMALL INCOMES.

Only 284 Incomes of More Than \$3,000 a Year.

There are few people in the Territory receiving larger incomes than \$3,000 a year, according to the income tax returns. There are but three planters who confess to so large a yearly return, while doctors and lawyers with large incomes are not much more in evidence.

The following is the communication to which Senator Dickey referred in the Senate yesterday:

Honolulu, May 6, 1903.

Hon. C. H. Dickey, Honolulu:
My Dear Senator: In reply to your request of this a.m. in re Income Tax I beg to state that the assessment returns for 1902 show the following having incomes of \$3,000 and over without the deduction of \$1,000 exemption, viz: Lawyers, 24; doctors, 9; merchants, 74; planters, 3; capitalists, etc., 49; corporations, 125.

The above estimate is as nearly correct as time allowed has permitted us to make.

Respectfully yours,
J. M. RIGGS,
Deputy Assessor Income Taxes.

FOURTH
AT HILO!

GRAND CELEBRATION
TWO DAYS OF SPORT

BEGINNING

FRIDAY, JULY 3

At 1:30 o'clock P.M. with a grand

CONGRESS OF COWBOYS

At Hoolulu Park.
